EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Solomon on February 13, 2006.

The application has been amended as follows:

The Claims:

In claim 10, line 5, after "or" insert – a --.

In claim 10, line 6, after "other" insert -- , --.

In claim 10, line 7, after "nitrogen" insert -- , --.

In claim 13, line 7, delete "further comprising an" and insert – at least one amine polymer selected from the group consisting of polyallylamines, polyethyleneimines, and polyvinylamines, wherein said at least one --.

In claim 13, line 7, delete "having" and insert – has --.

In claim 14, line 4, after "the" insert – at least one --.

Cancel claim 9.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Note that, Applicant's arguments, Applicant's amendments, and the Examiner's are sufficient to place the instant claims in condition for allowance.

Claims 3-7 and 10-18 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claim 12, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement as set forth in the Office action mailed on 2/14/05 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claims including all the limitations of an allowable product claim or rejoined process claim are presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Of the references of record, the most pertinent is Carter et al (US 2004/0152309). Carter et al teach a method of polishing a silicon-containing dielectric layer involving the use of a chemical-mechanical polishing system comprising an inorganic abrasive, a polishing additive, and a liquid carrier wherein the polishing composition has a pH of about 4 to about 9. See Abstract. However, Carter et al do not teach or suggest the use of the specific amine polymers as recited by the instant claims.

Art Unit: 1751

None of the references of record, alone or in combination, teach or suggest a composition and method of using such a composition for cleaning a substrate of semiconductor integrated circuits or liquid crystal display devices, said composition containing N-hydroxyformamide, an amine polymer having an average molecular weight of 250 or more, and the other requisite components of the composition in the specific proportions as recited by the instant claims. Accordingly, since the prior art fails to teach or suggest such a composition and method of using such a composition as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory R. Del Cotto whose telephone number is (571) 272-1312. The examiner can normally be reached on Mon. thru Fri. from 8:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on (571) 272-1316. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
